Project Design Phase-II

Technology Stack (Architecture & Stack)

| Date | 15 October 2022 |
|---|------------------|
| Team ID | PNT2022TMID13455 |
| Project Name IoT based smart crop protection system for agriculture | |
| Maximum Name | 4 Marks |

Technical Architecture:

The Deliverable shall include the architectural diagram as below and the information as per the table 1 & table 2.

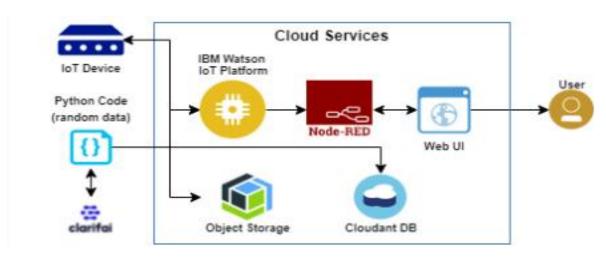

Table-1: Components & Technologies:

| S.No | Component | Description | Technology |
|------|---------------------|-----------------------------|------------------|
| 1. | User Interface | How user interacts with the | App development |
| | | Web UI | |
| 2. | Application Logic-1 | Logic for a process in the | Python |
| | | application | Objectives |
| 3. | Application Logic-2 | Logic for a process in the | IBM Watson STT |
| | | application | service |
| 4. | Application Logic-3 | Logic for a process in the | Node-RED service |
| | | application | |
| 5. | Database | Data Type | Database |
| | | | Cloudant DB |
| 6. | Cloud Database | Database Service on Cloud | Cloud Object |

| | | store service |
|--------------------------|---------------------------|--|
| File Storage | File storage requirements | IBM Block Storage |
| Infrastructure (Server / | Application Deployment on | Cloud Foundry |
| Cloud) | , | |
| | | |
| | + | Infrastructure (Server / Application Deployment on |

| S.No | Characteristics | Description | Technology |
|------|-----------------------------|---|--|
| 1. | Open-source Frameworks | The open-source frameworks used | SAN-SAF |
| 2. | Security Implementations | List all the security / access controls implemented | IBM cloud encryptions |
| 3. | Scalable Architecture | Justify the scalability of architecture (3 – tier, Micro-services) | IBM cloud Architecture |
| 4. | Availability | Justify the availability of applications (e.g. use of load balancers, distributed servers etc.) | Web Application can even be used by the framers in the horticulture |
| 5. | Performance | Design consideration for the performance of the application | Since the web application is high efficient, it can be used by the farmers irrespective of time. |
